EXPERIENCE

Full Stack Web Development Intern | [SuprMentr](#) · Remote

Feb 2026 – Present

- **Integrated ML-ready REST APIs** connecting MongoDB and MySQL — designed structured data schemas for mentor/mentee analytics modules with analysis-ready data outputs.
- **Tracked and validated data flows** across frontend and backend services, ensuring data integrity for downstream analytics and reporting use cases.
- **Applied full-stack engineering skills** (React.js, Node.js, Express.js) to ship production features, maintaining clean testable code via Git branching and PR reviews.

Associate Software Engineer Intern | [Accenture](#) · Bengaluru

May 2025 – Jul 2025

- **Automated data processing workflows** using Python scripts, cutting manual effort by ~40% — applied data wrangling and ETL automation skills in an enterprise environment.
- **Earned certifications in Generative AI, Prompt Engineering, and RPA** — directly applied AI-adjacent skills to automate and secure development workflows.
- **Maintained Java and Python backend modules** across Agile sprint iterations with GitLab CI/CD, keeping data-producing services stable for downstream consumers.

PROJECTS

AI Powered Automated Resume Screening System | [Journal](#)

Apr 2025 – Dec 2026

Tech: Python, Flask, spaCy, scikit-learn, Pandas

- **Designed an end-to-end NLP pipeline** using spaCy — tokenisation, POS tagging, and NER to extract skills, education, and experience from raw unstructured resume text.
- **Trained and evaluated a scikit-learn classifier** achieving 90% keyword extraction accuracy across 50+ test resumes — applied data preprocessing, cross-validation, and F1/accuracy metrics.
- **Deployed via Flask REST API for real-time scoring** — architecture extensible to larger JD-matching and candidate-ranking pipelines.

Bengaluru House Price Prediction | [GitHub](#)

Mar 2026

Tech: Python, scikit-learn, Pandas, Matplotlib

- **Built an ML regression model** predicting Bengaluru house prices from location, BHK count, total sqft, amenities, and proximity features — full feature engineering and data cleaning pipeline.
- **Compared Linear Regression, Decision Tree, and Lasso** across K-Fold cross-validation folds — selected best-performing model using GridSearchCV, reporting MAE, RMSE, and R².
- **Applied outlier removal and categorical encoding** on a real-world property dataset — complete Pandas pipeline from raw data to model-ready features.

Drone Fault Detection — Artificial Neural Network

Jan 2025

Tech: Python, TensorFlow, NumPy, SciPy

- **Extracted FFT-based features** from vibration signals using SciPy to distinguish normal vs faulty drone motor states.
- **Built and trained a TensorFlow ANN** achieving 85% test accuracy, implementing an end-to-end signal-to-classification pipeline.
- **Performed data preprocessing and normalization** to improve model performance and training stability.

TECHNICAL SKILLS

ML & Deep Learning: TensorFlow, scikit-learn, ANN, regression, classification, model evaluation, hyperparameter tuning

NLP: spaCy, NLP pipelines, keyword extraction, text preprocessing, named entity recognition

Data & Analysis: Python (Pandas, NumPy, SciPy), Matplotlib, Seaborn, feature engineering, EDA

Backend & Cloud: Flask, REST APIs, Node.js, GCP, Firebase, MongoDB, MySQL

Dev Tools: Git, GitHub, GitLab CI/CD, Agile, DBMS, SQL

Core CS: Data Structures & Algorithms, OOP, Operating Systems, Statistics

EDUCATION

B.E. in Computer Science & Engineering (Honours)

CGPA: 9.34 / 10

Rajarajeswari College of Engineering, Bengaluru

2022 – 2026

ACHIEVEMENTS & CERTIFICATIONS

- **VTU Elite GOLD** — [Machine Learning](#) · [Natural Language Processing](#) — VTU COE 2026
- **Infosys Foundation STEM Scholarship** — Top 5% of engineering students nationally — selected for academic excellence
- **Reliance Undergraduate Scholarship** — National merit-cum-means award for academic performance
- **ZS Scholars Program** — Selected by ZS Associates for academic distinction and data-driven problem-solving interest
- **GCP Ultimate Legend Tier** — Top 5% · 300+ labs · 100+ badges — [Google Cloud Skills Boost Arcade Program](#)
