EXPERIENCE

Full Stack Web Development Intern | [SuprMentor](#) · Remote

Feb 2026 – May 2026

- **Shipped FinFlow** — a production-deployed MERN finance dashboard with JWT auth, recurring transaction engine, recharts analytics, and budget alerts, built as the primary internship deliverable.
- **Built full-stack features** using React.js, Node.js, and Express.js — reusable component architecture reduced code duplication and accelerated feature delivery across the platform.
- **Designed and integrated RESTful APIs** connecting MongoDB Atlas and MySQL backends, enabling real-time data retrieval and persistent storage across mentor and mentee modules.
- **Managed Git branching and PR workflows** — reduced merge conflicts and maintained release velocity across all sprint deliverables.

Associate Software Engineer Intern | [Accenture](#) · Bengaluru

May 2025 – Jul 2025

- **Automated Excel data processing pipelines** using Python scripts — cut manual effort by ~40% and freed engineering bandwidth for higher-priority development tasks.
- **Wrote 20+ PyTest unit tests** covering positive and negative scenarios for enterprise backend modules, improving test coverage and catching edge-case bugs before production.
- **Stabilised Java and Python backend modules** in **Agile sprints**, maintaining code quality via GitLab CI/CD.
- **Earned certifications in Generative AI, Cybersecurity, Prompt Engineering, and RPA** — applied secure coding standards directly during development tasks.

PROJECTS

FinFlow — Personal Finance Analytics Dashboard | [Live](#) | [GitHub](#)

Feb 2026 – May 2026

Tech: React (Vite), Node.js, Express.js, MongoDB Atlas, JWT, Recharts

- **Shipped FinFlow** — full-stack MERN dashboard with JWT auth, bcrypt hashing, protected routes, deployed on Vercel + Render.
- **Engineered a recurring transaction engine** — auto-generates monthly entries on fetch without duplicates.
- **Built Recharts dashboards** — category breakdowns, trend charts, budget vs. actual alerts, and CSV export.
- **Designed REST APIs** (Node.js + Express + MongoDB Atlas) — transaction CRUD, budget management, month/year filtering, keyword search.
- **Dark/light mode, toast notifications, and anti-flicker loading UX** — production-grade frontend shipped end-to-end.

Farm2MarketConnect — Full Stack Marketplace

Jan 2026

Tech: Java, Spring Boot, React.js, MySQL, JWT, Nominatim API

- **Architected a farmer-to-buyer marketplace** with JWT REST APIs, real-time notifications, farmer-buyer chat, multi-image uploads, location-based search, ratings/reviews, and COD/UPI payment flow.
- **Resolved a Spring Security circular dependency and Hibernate lazy-loading issues** — delivered a stable production-ready system end-to-end from database schema to React UI.

AI Powered Automated Resume Screening System | [Journal](#)

Apr 2025 – Dec 2026

Tech: Python, Flask, spaCy, scikit-learn

- **Built an NLP pipeline using spaCy** to extract skills, education, and experience from resumes and auto-match them against job descriptions — reduced manual screening time by 5–10 min per resume.
- **Trained a scikit-learn scoring model** achieving 90% keyword extraction accuracy across 50+ test resumes, served via a Flask REST API for real-time inference.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Backend & Frameworks: Spring Boot, Node.js, Express.js, Flask, REST APIs, React.js

Databases: MySQL, MongoDB, Firebase, SQL

Cloud & DevOps: [GCP](#), Git, GitHub, GitLab CI/CD, Agile, SDLC, Vercel, Render

AI / ML: TensorFlow, spaCy, scikit-learn, Pandas, NumPy

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

EDUCATION

B.E. in Computer Science & Engineering (Honours)

Rajarajeswari College of Engineering, Bengaluru

CGPA: 9.34 / 10

2022 – 2026

ACHIEVEMENTS & CERTIFICATIONS

- **Infosys Foundation STEM Scholarship** — Top 5% of engineering students nationally — selected for academic excellence
- **Reliance Undergraduate Scholarship** — National merit-cum-means award for academic performance
- **ZS Scholars Program** — Selected by ZS Associates for academic distinction
- **VTU Elite GOLD** — [DSA using Java](#) · [Ethical Hacking](#) · [Competitive Programming](#) · [Blockchain](#) — VTU COE 2026
- **GCP Ultimate Legend Tier** — Top 5% · 300+ labs · 100+ badges — [Google Cloud Skills Boost Arcade Program](#)
